

Validation Plan Review Process

Note: Submission should not be the first time the ITS & Network Service Branch has heard of the project or discussed this document. This submission is more of a documentation of previous discussions. If content is not previously shared with the Branch, the review process is likely to take longer and a rejection is more likely.

Notes:
 *Minor comments/revision can be made to a document without a resubmission being required so long as the over all meaning of the document is not altered. If comments impact the meaning or wants/needs were not fulfilled and no explanation is provided, then the document needs to be updated and resubmitted.

1. Drafted in June 2021
